

AMPOL ... A Leading Oil Spill Response and Total Environmental Solutions Provider

December 2014

www.ampol.net.

AMPOL (American Pollution Control) is a diverse, 24 hour environmental remediation company based in New Iberia, LA, with additional offices in Chalmette, Harvey, and Bayou Vista, LA, as well as Port Arthur, TX. AMPOL employs approximately 185 personnel, and offers a wide range of environmental services worldwide.

We at AMPOL are proud to announce that we have worked 457,419 hours, and over 420 days since our last recordable incident. This was achieved by focusing on communicating how to recognize and mitigate hazards before starting any tasks associated with a job. We believe communication is the key to working safely, and we are committed to the safety and well-being of our employees. Our experienced management team's unwavering commitment to safety has carried over to all of our employees, who believe safety is the top priority, not only in the field, but at home as well. We encourage our employees to always be mindful of the safety practices they learn at work, and practice them at home. We believe all accidents are preventable when we recognize and communicate hazards and risks inherent to job tasks. We encourage our employees to practice this daily.

AMPOL would like to thank each of its employees for his or her dedication to the job, but more importantly, for accepting the responsibility of working and living safely, both on the job and at home. We are all responsible for safety.

AMPOL employs more than 200 employees worldwide and offers [oil spill response](#), tank cleaning, confined space entry services, [naturally occurring radioactive material \(NORM\) survey and remediation](#), [lead and asbestos abatement services](#), [insulation services](#), hazardous material (HAZ-MAT) emergency cleanup, soil remediation, demolition services, [marine transportation](#), [spill equipment manufacturing](#) and emergency medical services.
